

src/dsm/headers/Node.hpp

```
graph TD; Node_hpp[src/dsm/headers/Node.hpp] --> functional[functional]; Node_hpp --> queue[queue]; Node_hpp --> utility[utility];
```

A diagram illustrating the structure of the `src/dsm/headers/Node.hpp` file. The top box, labeled `src/dsm/headers/Node.hpp`, has three arrows pointing down to three separate boxes below it: `functional`, `queue`, and `utility`. This indicates that `Node.hpp` includes or defines these three components.

functional

queue

utility
